

Key-Plan

The diagram is a schematic floor plan of a building, labeled 'Key-Plan'. It shows a central corridor or hallway connecting different sections. A red square is located on the left side of the plan, near the entrance area. Several black squares are also present, likely representing other rooms or features. The overall shape of the building is irregular, with a large central rectangular area and several smaller rectangular extensions.

A horizontal number line with tick marks at 16, 17, and 18. The line is labeled with these numbers below the tick marks.
