

This architectural section drawing illustrates a building facade. The ground floor features a brick wall on the left, followed by a series of windows and a door. The first floor is characterized by a row of windows. The drawing is divided into two parts by a vertical line, with the right part highlighted in yellow.

Technical drawing of the facade for 'VIA MAMELI'. The drawing shows a two-story structure with a red dashed outline. The facade is divided into two main horizontal sections. The upper section features a large rectangular window with a black frame and a smaller rectangular element to its right. The lower section features a large rectangular window with a black frame and a smaller rectangular element to its right. The drawing includes dimensions: 3.30m for the height of the lower section and 3.00m for the height of the upper section. The text 'VIA MAMELI' is written below the drawing, followed by a decorative pattern of diagonal lines.
